Summary

Computer Engineering graduate (2025) with hands-on experience in Full-Stack Web Development using the MERN stack. Built and deployed 3+ live web applications, including a production-ready full-stack portfolio with custom REST APIs, MongoDB Atlas integration, and backend email automation. Proficient in React.js, Next.js, Node.js, Express.js, and database design. Passionate about writing clean, scalable code and building user-focused, high-performance applications.

Projects

Portfolio Website (Full-Stack)

- Built a full-stack portfolio website with Next.js frontend and Node.js/Express backend
- Designed a REST API for contact form with MongoDB Atlas integration using Mongoose
- Implemented Nodemailer to send automated email notifications on form submissions
- Deployed frontend on Vercel and backend separately with environment-based configuration
- Added dark/light mode and smooth Framer Motion animations to enhance user experience
- Tech Stack: Next.js 15, Node.js, Express.js, MongoDB, Mongoose, Nodemailer, Tailwind CSS, Framer Motion
- **GitHub:** <https://github.com/anzararai/anzar-portfolio>
- **Live:** <https://anzar-portfolio.vercel.app>

Smart Task Manager (Todo App)

- Created a todo application where users can add, delete, and mark tasks as complete
- Made it fully responsive so it works perfectly on mobile, tablet, and desktop
- Used browser Local Storage to save tasks, so they don't disappear when page refreshes
- Built with React Hooks (useState, useEffect) for managing task data
- Utilized GitHub Copilot for faster development workflow
- Tech Stack: React.js, Tailwind CSS, Local Storage
- **GitHub:** <https://github.com/anzararai/todo-app-react>
- **Live:** <https://anzararai.github.io/todo-app-react/>

Real-Time Weather App

- Developed a weather app that shows real-time weather for any city in the world
- Integrated OpenWeather API to fetch temperature, humidity, and wind speed data
- Added search functionality where users type city name and get instant weather info
- Tech Stack: React.js, OpenWeather API, Vanilla CSS
- **GitHub:** <https://github.com/anzararai/weather-app>
- **Live:** <https://weatherappanzar.netlify.app/>

Skills

Frontend Development

- React.js
- Next.js 15
- JavaScript (ES6+)
- HTML5
- CSS3
- Tailwind CSS

Backend Development

- Node.js
- Express.js
- MongoDB
- Mongoose
- REST APIs
- Nodemailer

Tools & Platforms

- Git, GitHub
- API Integration
- Vercel, Netlify
- MongoDB Atlas
- GitHub Copilot
- Postman

Soft Skills

- Problem Solving
- Quick Learning
- Team Collaboration

Educational Background

Rizvi College of Engineering

Bachelor of Engineering
Oct 2021 - May 2025

- **Computer Engineering**

National High School & Jr. College Dapoli

SSC	2019
HSC	2021

Languages

- English
- Marathi
- Hindi
- Konkani
