Summary

Computer Engineering graduate (2025) specializing in React.js and Next.js ecosystem. Successfully built and deployed 3+ live web applications with focus on responsive design and optimal performance. Quick learner actively expanding into full-stack MERN development while leveraging AI-assisted tools for enhanced code quality and faster delivery.

Projects

Portfolio Website

- Built a modern portfolio website using Next.js 15 with fast loading and smooth navigation
- Added dark and light mode toggle that remembers user preference using browser storage
- Created smooth animations using Framer Motion for better user experience
- Integrated Web3Forms for contact form that sends emails without needing a backend server
- Used AI tools like GitHub Copilot for faster coding and better component structure
- Tech Stack: Next.js 15, React.js, Tailwind CSS, Framer Motion, Web3Forms
- **GitHub**: https://github.com/anzararai/anzar-portfolio
- **Live**: https://anzar-portfolio.vercel.app

Smart Task Manager (Todo App)

- Created a todo application where users can add, delete, and mark tasks as complete
- Made it fully responsive so it works perfectly on mobile, tablet, and desktop
- Used browser Local Storage to save tasks, so they don't disappear when page refreshes
- Built with React Hooks (useState, useEffect) for managing task data
- Used AI assistance to fix bugs and improve code efficiency
- Tech Stack: React.js, Tailwind CSS, Local Storage
- **GitHub**: https://github.com/anzararai/todo-app-react
- **Live**: https://anzararai.github.io/todo-app-react/

Real-Time Weather App

- Developed a weather app that shows real-time weather for any city in the world
- Integrated OpenWeather API to fetch temperature, humidity, and wind speed data
- Added search functionality where users type city name and get instant weather info
- Tech Stack: React.js, OpenWeather API, Vanilla CSS
- **GitHub**: https://github.com/anzararai/weather-app
- **Live**: https://weatherappanzar.netlify.app/

Skills

Frontend Development

- React.js
- Next.js 15
- JavaScript (ES6+)
- HTML5
- CSS3
- Tailwind CSS
- Framer Motion

Backend (Currently Learning)

- Node.js
- Express.js
- MongoDB

Database & Tools

- SQL
- Git, GitHub
- API Integration
- Vercel

AI Development Tools

- AI-Assisted Coding
- GitHub Copilot
- Prompt Engineering

Educational Background

Rizvi College of Engineering

Bachelor of Engineering
Oct 2021 - May 2025
- **Computer** Engineering
- CGPA : 7.29

National High School & Jr. College Dapoli

SSC   2019
HSC   2021

Languages

- English
- Marathi
- Hindi
- Konkani
